

INDEX OF SUBJECTS

Age—renal basement membrane....	165	Fatty liver, experimental	365
Anoxia	1	—CCL ₄	521
Anthrax, human	457	Gardner lymphosarcoma	
Aorta—atheroma, geographic variation	559	6C3HED	105
Ascaris—in eye	725	Gastrointestinal tract—carcinoid ..	623
Arteriosclerosis—cholesterol	393	Geographic pathology	533; 559
Artery—coronary	113	Glomerulonephritis	607
—intimal proliferation	289	Glomerulus—involution	713
Atherosclerosis	19	Glycogen—myocardium	55
—cholesterol	393	Guinea pig—thyroiditis	213
—geographic variation	559	Heart—brucellosis	673
Basement membrane—kidney	165	—conduction system	411
Brain—cerebral artery	289	—coronary artery	113; 559
—cerebral swelling	273	—experimental endocarditis	181
—triethyl tin poisoning	273	—glycogen	55
Bronchial carcinoma, experimental ..	653	—infarct	575
Brucellosis—heart	673	—myocarditis	533
Carbon tetrachloride—blood	521	Hepatic lipid	365
—liver	521	Hepatitis, neonatal	151
Carcinogenesis, experimental	473	Histiocytosis—colon	201
Carcinoid—histochemistry	623	Histochemistry—carcinoid	623
Carcinoma, experimental—bronchus ..	653	—glycogen	55
—salivary gland	473	—myocardial infarct	575
Casein—hepatic lipid	365	—nephrocalcinosis	331
Cerebral artery—intimal proliferation ..	289	—Whipple's disease	201
Cerebral fluid	273	Hypercalcemia—kidney	77
Cerebral swelling	273	Hypothalamic damage	365
Choline—deficiency	499	Immunization—thyroid extract	213
—hepatic lipid	365	India—atheroma	559
Cirrhosis—experimental	125; 499	Infarct, myocardial	575
—posthepatic	241	Inhalation anthrax	457
—Wilson's disease	483	Intimal proliferation—artery	289
Colon—histiocytosis	201	Intravenous fat pigment	355
Conduction system	411	Involution—glomerulus	713
Copper—in kidney	699	Iron—dietary excess	499
Coronary artery	113	—overload	125
—atheroma, geographic variation ..	559	Ischemia—brain	1
Diet—choline deficiency	499	—myocardium	575
—iron overload	499	Jamaica, W.I.—atheroma	559
Dog—coronary artery	113	Japan—atheroma	559
—thyroiditis	213	Kidney—basement membrane	165
Electron microscopy—atherosclerosis ..	19	—cortical necrosis	431
—kidney	165; 303	—effect of copper	699
—nephrosis	303	—glomerular involution	713
—renal basement membrane	165	—glomerulonephritis	607
Encephalopathy	1	—hypercalcemia	77
Endocarditis, experimental	181	—nephrocalcinosis	331
Exercise—in atherosclerosis	393	—nephrosis, acute	431
Eye—Ascaris	725	—nephrosis, experimental	303; 431
Fat pigment	355	Ligation—artery, duct, salivary gland ..	473
		Liver—cirrhosis	241
		—fat	365; 521
		—hepatitis, neonatal	151

- Liver** (*continued*)
- iron overload 125
 - pigment cirrhosis 499
 - tumor inhibitory principle 105
 - Wilson's disease 483
 - Lung**—anthrax 457
 - plexiform structures 593
 - Lymphosarcoma** 105
 - Mouse**—bronchial carcinoma 653
 - copper 699
 - Myocarditis** 533
 - Myocardium**—glycogen 55
 - Narrowing**—coronary artery 113
 - Neonatal hepatitis** 151
 - Nephrocalcinosis**—vitamin D 331
 - Nephrosis**, acute 431
 - Nephrosis**, experimental 303
 - Nephrotoxic lesion**—copper 699
 - Nutritional cirrhosis** 241
 - Ova**—*Ascaris* 725
 - Parathyroid extract**—hypercalce-
mia 77
 - Pigment**—intravenous fat 355
 - Pigment cirrhosis**, experimental .. 499
 - Plexiform structure**—lung 593
 - Postnecrotic cirrhosis** 241
 - Polyphagia**—hypothalamic damage . 365
 - Pregnancy**—renal necrosis 431
 - Pulmonary plexiform structures** 593
 - Rabbit**—atherosclerosis 393
 - thyroiditis 213
 - Radiation injury**, experimental—
bronchial carcinoma 653
 - Rat**—age 165
 - carcinoma, experimental 473
 - encephalopathy 1
 - fatty liver 365
 - hypothalamic damage 365
 - kidney 165; 431
 - renal necrosis 431
 - Salivary gland**—carcinoma, experi-
mental 473
 - Scarring**—glomerulus 713
 - Sensitivity**—endocarditis 181
 - Serotonin**—renal necrosis 431
 - Thyroid extract**—immunization... 213
 - Thyroiditis**, experimental 213
 - Tin**, triethyl—poisoning 273
 - Tumor inhibitory principle** 105
 - United States**—atheroma 559
 - Venezuela**—myocarditis 533
 - Vitamin D**—nephrocalcinosis 331
 - Whipple's disease** 201
 - Wilson's disease** 483; 699

INDEX OF AUTHORS

Albrink, W. S.; Brooks, S. M.; Biron, R. E., and Kopel, M. Human inhalation anthrax; a report of three fatal cases. (April)	457
Anderson, P. J., and Popper, H. Changes in hepatic structure in Wilson's disease. (May)	483
Angrist, A. A.; Oka, M.; Nakao, K., and Marquiss, J. Studies in experimental endocarditis. I. Production of valvular lesions by mechanisms not involving infection or sensitivity factors. (February)	181
Arnold, N. J. See Ashworth, Erdmann and Arnold (February)	165
Ashworth, C. T.; Erdmann, R. R., and Arnold, N. J. Age changes in the renal basement membrane in rats. (February)	165
Beck, D. See Carone, Epstein, Beck and Levitin (January)	77
Belter, L. F. See Peery and Belter (June)	673
Biron, R. E. See Albrink, Brooks, Biron and Kopel (April)	457
Brooks, S. M. See Albrink, Brooks, Biron and Kopel (April)	457
Browne, H. G. See Chowdhury, Kean and Browne (June)	725
Chowdhury, A. B.; Kean, B. H., and Browne, H. G. Inoculation of helminth eggs into animal eyes. (June)	725
Churg, J. See Grishman and Churg (May)	607
Cook, J. B. III. See Lumb, Shacklett and Cook (January)	113
Carone, F.; Epstein, F. H.; Beck, D., and Levitin, H. The effects upon the kidney of transient hypercalcemia induced by parathyroid extract. (January)	77
Egan, R. W. See Terplan, Witelsky, Rose, Paine and Egan (February)	213
Emery, J. L., and Macdonald, M. S. Involuting and scarred glomeruli in the kidneys of infants. (June)	713
Epstein, F. H. See Carone, Epstein, Beck and Levitin (January)	77
Erdmann, R. R. See Ashworth, Erdmann and Arnold (February)	165
Forbes, A. L. See Thompson, Fox, Forbes and Thomassen (March)	355
Fox, M. A. See Thompson, Fox, Forbes and Thomassen (March)	355
Gall, E. A. Posthepatic, postnecrotic, and nutritional cirrhosis. (March)	241
Gates, O., and Warren, S. The production of bronchial carcinomas in mice (June)	653
Glenner, G. G. See Lillie and Glenner (June)	623
Golberg, L., and Smith, J. P. Iron overloading and hepatic vulnerability. (February)	125
Gore, I.; Robertson, W. B.; Hirst, A. E.; Hadley, G. G., and Koseki, Y. Geographic differences in the severity of aortic and coronary atherosclerosis. The United States, Jamaica, W. I., South India and Japan. (May)	559
Gould, S. E. Geographic pathology. Chronic myocarditis of Venezuela. (May)	533
Grishman, E., and Churg, J. Chronic glomerulonephritis. (May)	607
Hadley, G. G. See Gore, Robertson, Hirst, Hadley and Koseki (May)	559
Harkin, J. C., and Recant, L. Pathogenesis of experimental nephrosis. Electron microscopic observations. (March)	303
Hartroft, W. S. See Meyer and Hartroft (April)	365
Herbut, P. A., and Kraemer, W. H. Presence of a tumor inhibitory principle in livers. (January)	105
Hirst, A. E. See Gore, Robertson, Hirst, Hadley and Koseki (May)	559
Kean, B. H. See Chowdhury, Kean, and Browne (June)	725
Klionsky, B. Myocardial ischemia and early infarction. A histochemical study. (May)	575
Kobernick, S. D., and Niwayama, G. Physical activity in experimental cholesterol atherosclerosis of rabbits. (April)	393
Kopel, M. See Albrink, Brooks, Biron and Kopel (April)	457
Koseki, Y. See Gore, Robertson, Hirst, Hadley and Koseki (May)	559
Kraemer, W. H. See Herbut and Kraemer (January)	105
Landing, B. H. See Rowlands and Landing (February)	201

Levine, S. Anoxic-ischemic encephalopathy in rats. (January)	I
Levitin, H. See Carone, Epstein, Beck and Levitin (January)	77
Lillie, R. D., and Glenner, G. G. Histochemical reactions in carcinoid tumors of the human gastrointestinal tract. (June)	623
Litteria, M. See Recknagel and Litteria (May)	521
Lumb, G., and Shacklett, R. S. Human cardiac conduction tissue lesions. (April)	411
—; —, and Cook, J. B. III. The results of varying degrees of narrowing in the left circumflex coronary artery in dogs. (January)	113
Macdonald, M. S. See Emery and Macdonald (June)	713
MacDonald, R. A. Experimental pigment cirrhosis. Its production in rats by feeding a choline-deficient diet with excess iron. (May)	499
Marquiss, J. See Angrist, Oka, Nakao and Marquiss (February)	181
Meyer, J. S., and Hartroft, W. S. Hepatic lipid produced by polyphagia in albino rats; relationships to dietary choline and casein. (April)	365
Naeye, R. L., and Vennart, G. P. The structure and significance of pulmonary plexiform structures. (May)	593
Nakao, K. See Angrist, Oka, Nakao and Marquiss (February)	181
Niwayama, G. See Kobernick and Niwayama (April)	393
Oka, M. See Angrist, Oka, Nakao and Marquiss (February)	181
Paine, J. R. See Terplan, Witebsky, Rose, Paine and Egan (February)	213
Parker, F. An electron microscopic study of experimental atherosclerosis (January)	19
Pearl, M. J. See Waugh and Pearl (April)	431
Pearse, A. G. E. See Scarpelli, Tremblay and Pearse (March)	331
Peery, T. M., and Belter, L. F. Brucellosis and heart disease. II. Fatal brucellosis: a review of the literature and report of new cases. (June)	673
Popper, H. See Anderson and Popper (May)	483
Recant, L. See Harkin and Recant (March)	303
Recknagel, R. O., and Litteria, M. Biochemical changes in carbon tetrachloride fatty liver; concentration of carbon tetrachloride in liver and blood. (May)	521
Reiner, L. See Wittels and Reiner (January)	55
Robertson, W. B. See Gore, Robertson, Hirst, Hadley and Koseki (May)	559
Rose, N. R. See Terplan, Witebsky, Rose, Paine and Egan (February)	213
Rowlands, D. T., Jr., and Landing, B. H. Colonic histiocytosis in children; report of a form resembling that seen in Whipple's disease. (February)	201
Ruebner, B. The pathology of neonatal hepatitis. (February)	151
Scarpelli, D. G.; Tremblay, G., and Pearse, A. G. E. A comparative cytochemical and cytologic study of vitamin D induced nephrocalcinosis. (March)	331
Shacklett, R. S. See Lumb and Shacklett (April)	411
—, See Lumb, Shacklett and Cook (January)	113
Shafer, W. G. See Standish and Shafer (April)	473
Smith, J. P. See Goldberg and Smith (February)	125
Standish, S. M., and Shafer, W. G. Experimental carcinogenesis in the duct-ligated and artery-ligated submaxillary salivary gland of the rat. (April)	473
Stehbens, W. E. Focal intimal proliferation in the cerebral arteries. (March)	289
Terplan, K. L.; Witebsky, E.; Rose, N. R.; Paine, J. R., and Egan, R. W. Experimental thyroiditis in rabbits, guinea pigs and dogs, following immunization with thyroid extracts of their own and of heterologous species. (February)	213
Terry, R. D. See Torack, Terry and Zimmerman (March)	273
Thompson, S. W. II; Fox, M. A.; Forbes, A. L., and Thomassen, R. W. Residual pigment associated with intravenous fat alimentation. (March)	355
Thomassen, R. W. See Thompson, Fox, Forbes and Thomassen (March)	355
Torack, R. M.; Terry, R. D., and Zimmerman, H. M. The fine structure of cerebral fluid accumulation. II. Swelling produced by triethyl tin poisoning and its comparison with that in the human brain. (March)	273
Tremblay, G. See Scarpelli, Tremblay and Pearse (March)	331
Vennart, G. P. See Naeye and Vennart (May)	593
Vogel, F. S. Nephrotoxic properties of copper under experimental conditions in mice; with special reference to the pathogenesis of the renal alterations in Wilson's disease. (June)	699
Warren, S. See Gates and Warren (June)	653

Waugh, D., and Pearl, M. J. Serotonin-induced acute nephrosis and renal cortical necrosis in rats; a morphologic study with pregnancy correlations. (April) . . .	431
Witebsky, E. See Terplan, Witebsky, Rose, Paine and Egan (February) . . .	213
Wittels, B., and Reiner, L. Histochemical observations on glycogen in the human myocardium. (January) . . .	55
Zimmerman, H. M. See Torack, Terry and Zimmerman (March) . . .	273
